3. Were the meeting time and location convenient?

- Yes
- No
- Additional Comments:

This event was not well advertised. I'm disappointed that this is the first I've learned of this redevelopment plan

4. Was the information provided sufficient and clearly presented?

- Yes
- No
- Additional Comments:

The map views were too wide to offer the necessary level of detail to support a fruitful discussion.

5. Was there an opportunity for public participation?

- Yes
- No
- Additional Comments:

6. Do you feel your comments were heard?

- Yes
- No
- Additional Comments:

Detail on assumptions behind transportation issues was not provided when asked, especially about Metro usage

7. What are your concerns about this event/project?

Transportation - Insufficient consideration has been given to impact of additional residents ~~and~~ commercial users on traffic in the area. In particular North & South traffic on route 1 is already bad and this plan offers little to alleviate this problem. The ^{parallel} North/South road build needs to occur earlier in the project. Also little consideration seems to have been given to overflow of traffic to neighborhood streets increasing danger to pedestrians in Del Ray.

8. What worked well during the meeting and why? What could have been done better during the meeting and why?

9. Other thoughts? (please use the other side)

The weight of effort in this process seems to be focused on accommodating residents of Potomac Yard and little consideration is being →

given to needs of residents in Del Rey and Lynnhaven. ^{← Lane} Improvements at Custis and Route 1 should begin sooner rather than later. What is the expected impact on increased usage of the school from new residents?

7. What are your concerns about this event/project?

Along with the Potomac Yard density & the proposed density of Oakville the very poor transportation planning is going to lead to grid lock. The city had an opportunity to buy the property where Verizon is as well as the Window store. Lack of foresight then & allowing increased density is an extremely poor mix

7. What are your concerns about this event/project?

That you will build another suburban crap-hole like you did in Potomac Yard. Also you have no clue what to do about the Glebe Rd. intersection.

8. What worked well during the meeting and why? What could have been done better during the meeting and why?

Traffic is always a time consuming and controversial topic. Get through the rest of the presentation before going there.
