## **1. Which of these potential PLANNING, DESIGN and LAND USE objectives are of importance to you? You may select more than one.**

Promote high quality pedestrian oriented streetscapes

### **Other ideas?**

What is an active street frontage?

Minimize trucks in residential areas.

The notion of having Montgomery St as retail is a fantasy. There is a park, several office buildings and a high rise condo that precludes this.

Keep new development to a low scale. The City can control the heights of buildings. High buildings block sun, are impersonal, and the density creates traffic problems. It is getting increasingly difficult to cross the street. We have arha public housing with elderly people. It takes older people a long time to cross the street. Traffic gets backed up. Soon, someone's going to get hit by a car. Too much density causes tension between people. Am already seeing it around Harris Teeter. People honk, yell at each other. Creates a very disturbing quality of life.

## Other thoughts?

When you add lighting to sidewalks, please don't make them so bright.

Stop parking SUPs.

Stop height SUPs.

The north end needs more appropriate lighting on sidewalks, more trees, and permeable sidewalks.

I was president of the Old Town North Community Association in the late 1990s. We initiated an effort to revise the small area plan at that time, but I guess it never took hold.

Give priority to businesses that serve the area over more housing. I've lived in the neighborhood for nearly a quarter century. At one time more housing seemed like a good idea, but enough is enough.

There isn't a surfeit of open space in Old Town North and there don't seem to be too many opportunities to develop more of it. We always have the river!

**6. Which of these potential HISTORIC PRESERVATION objectives are of importance to you? You may select more than one.**

Promote cultural richness and an understanding of the history of the neighborhood

**Other ideas?**

I used to write a column for the Gazette Packet on Old Town North, and did several on the history of the place. It's actually quite interesting, and it would be great to seek ways to educate others about it. The canal is a good example.

## My Priorities

# Old Town North Small Area Plan Update - November 2015

Help develop draft goals and objectives for the Old Town North Small Area Plan Update

- Enhance Old Town North's unique character and sense of place
- Expand and connect publicly accessible passive and active open space
- Grow and sustain a balanced economy
- An integrated multi-modal transportation network

## Other ideas?

Separate walking and biking paths. Combined paths are unsafe for both walkers and bikers. I have been physically pushed off the walking/biking path by a passing biker. This occurred when the biker was trying to pass me at a very high speed and there was another biker coming at us on the path. I was walking to the far right of the path when this occurred.

### **Other thoughts?**

Just be sure that any development that occurs has the appropriate infrastructure in place to support before housing/retail is built. Developing first and playing catch up with necessary roads, parking, etc., makes everyone complain, causes road rage, and turns people away from visiting Old Town.

Make this area of Alexandria "visitor friendly". The current parking situation is obnoxious (to be kind) to those of us who bring business into Alexandria from other areas. A two-hour parking limit for those who want to enjoy restaurants, or who have paid good money for THREE-hour Art League classes is unrealistic. Forcing patrons to move their cars every two hours, when they're still going to be taking up the same amount of car space in the general area (missing at-table conversation or art lectures) is ridiculous. Or, for that matter, running from hair salons, with dripping wet hair or all foiled up, to feed more money in the meter is equally ridiculous. (Done it!) Why, then, do I (with the disposable income to spend) want to come into Alexandria when I'm apparently not all that welcome??

## 1. Which of these potential PLANNING, DESIGN and LAND USE objectives are of importance to you?

**You may select more than one.**

Identify areas for public facilities and institutions

## Other ideas?

Please preserve the Art League. Because if this goes away, I will have little incentive left to come into Alexandria. Parking is already impossibly frustrating everywhere in Old Town (North and otherwise), and the Art League is the ONE LAST regular incentive for me to bother with Alexandria anymore. I can count on the availability of the classes I love, consistently every season, and, while in the area, I am re-energized to enjoy other aspects of the city. Without the Art League, it will pretty much be "out of sight, out of mind".

Please address parking issues so that people driving into Alexandria don't need to play musical chairs with their cars! It's unreasonable and will ultimately drive business away.

Part IV: Additional thoughts

### **What other concerns or opportunities should be addressed in the Old Town North Small Area Plan Update?**

Educational Facilities

#### **Other thoughts?**

Please preserve the Art League. It brings business to the area and reminds patrons what is otherwise beautiful about Alexandria. We patronize restaurants and other facilities when we are in the area for our art classes. It BRINGS those of us who do NOT live in Old Town into the area.

The Art League has an educational facility there. This adds a great deal to the community. For instance people of all ages use it. Underprivileged girls attend classes there and are introduced to art. Seniors use it. Kids use it. Identify new open space and cultural activities

Identify new public art opportunities

Design open space to accommodate a variety of recreational and cultural uses for all ages and abilities

## Other ideas?

With the opening of the power plant space imminent, we need to allow for open spaces and parks in addition to new development. Density for its own sake is detrimental. Walkable, bikeable, livable communities are what we want to encourage.

## Other thoughts?

As resident of the south end of Old Town, I think Old Town North has a lot going for it - proximity to Metro and the waterfront, unique locally-owned retail, and a quick drive into DC via the Parkway. However, the number of auto-oriented blocks with street-fronting parking hurt the area's appeal. Enhancing the pedestrian environment and activating the streets would go a long way to making the area more attractive.

Preserve parks and green spaces not surrounded by large buildings. Preserve open spaces and that includes "sky space." In the last few years townhouses and condos in Alexandria have become so tall you can't see over them. Old Town North still has some open space in which you can see the sky for several blocks without it being shadowed by a "3" story" - or more housing unit. Leave the Art League Madison Annex in place. It is one of the few places in the neighborhood where art and community come together. As someone only one street out of the "Old Town North" neighborhood - the Art League Madison Annex is one of the only things that builds community in this neighborhood for like-minded people who are interested in the arts - I can walk to it - you should be able to walk to arts and leisure on your own neighborhood. Stop building for tourists (hotel tourist souvenirs etc)- please keep in mind the people who live here.
